WORK EXPERIENCE

React Instructor

Online Teacher

I'm the leader of a group of 20+ students that teaches the fundamentals of react.

Achievements/Tasks

- I answer questions involving hooks, routing, and other React tools.
- I've developed clear and concise understandings of React to better apply my ability to teach.

Independent Freelance

Web Developer

I've experience working with other software engineers making various production-ready projects

Achievements/Tasks

- I've developed client-friendly web applications from start to finish with SEO friendliness and mobile responsiveness in mind.
- Personal experience applying design suggestions and implementing a client's request.
- I've developed a foundation of coding best practices to increase its readability and efficiency.

Clerkjs

PERSONAL PROJECTS

Quest Bazaar

- <https://quest-bazaar.vercel.app/>
- Next JS DnD social media app
- Allows users to both advertise and find DnD games
- Conveniently allows you to schedule games and create characters

Discover Videos App

- <https://discover-videos-one.vercel.app/login>
- Next.JS app that mimics the functionality of Netflix and Youtube
- Uses a tool called Magic and JWT to authenticate users without the need of a password
- Uses Hasura to store user data and track user video statistics
- Has middleware that improves user security by verifying the user's JWT

Coffee Stores App

- <https://discover-coffee-sigma.vercel.app/>
- Next.JS App that geolocates nearby coffee stores and gives you their address and additional data
- Uses Airtable to store visited coffee stores so that it can be quickly fetched if visited again
- Statically generates a preset of coffee stores to improve SEO
