WORK EXPERIENCE

React Instructor
Online Teacher

I'm the leader of a group of 20+ students that teaches the fundamentals of react.

Achievements/Tasks
- I answer questions involving hooks, routing, and other React tools.
- I've developed clear and concise understandings of React to better apply my ability to teach.

Independent Freelance
Web Developer

I've experience working with other software engineers making various production-ready projects

Achievements/Tasks
- I've developed client-friendly web applications start to finish, with emphasis on SEO and mobile responsiveness.
- Personal experience applying design suggestions and implementing a client's request.
- I've developed a foundation of coding best practices to increase its readability and efficiency.
